

Codonics Infinity[®] Web Viewer

The Codonics Infinity Web Viewer is a browser based JPEG viewer for patient searching and image viewing* over the network from any PC or workstation. This optional JPEG viewer is easy to configure and enables efficient review of a patient's studies and images. The Infinity Web Viewer extends the reach of your Codonics investment by providing the ability to quickly share medical images** with other physicians in a secure environment.

Codonics Infinity Medical Image Server is a compact DICOM storage device that significantly improves workflow by locally storing all modality data for immediate access. In addition to the Web Viewer, Infinity also features an optional DICOM Viewer for detailed images.

For general radiology review**

- Authorized access to browser based searching of DICOM studies
- JPEG viewing of thumbnail and large images
- Expand large images to full JPEG resolution for high-resolution viewing
- Provides patient, study, series, and image level information
- Optional launching of Codonics Infinity DICOM Viewer for viewing DICOM medical images

* viewing through the Internet requires a VPN

**not intended for primary interpretation
