Version 1.4.2 Release Notes

Summary
Version 1.4.2 software provides improvements for the Codonics Infinity® LX Medical Image Server.
This software is only compatible with Infinity LX servers. It is not compatible with Infinity C servers.

NOTE: This version of software cannot be downgraded to a previous released version after being upgraded to version 1.4.2.

The Infinity Medical Image Server is an expandable DICOM storage appliance that provides a solution for storing and retrieving medical images. Applications include temporary storage of large DICOM data sets directly from any modality, and storage of digital images in an environment without a centralized, digital image archive.

Improvements
- Support for the latest revision of the Adaptec by PMC™ Series 5 (51645) RAID card.

Technical Support
If problems occur during software installation, contact Codonics Technical Support between the hours of 8:30AM and 5:30PM EST (weekends and U.S. holidays excluded).
